Technical Skills

- Programming Languages
- Java, Python, C/C++
- JavaScript
- Data Structures and Algorithms
- Database Management
- SQL (MySQL, PostgreSQL)
- HTML, CSS, JavaScript
- Frameworks like React.js or Node
- Object-Oriented Programming (OOP)

LANGUAGES

- English
- Hindi
- Gujarati

PROFILE

Enthusiastic and highly motivated IT graduate with a strong foundation in software development, programming, and problem-solving. Skilled in languages such as Java, Python, and C++, with hands-on experience in academic and personal projects involving web development, database management, and application design. Eager to contribute to real-world software solutions while continuously learning and growing in a dynamic tech environment. A quick learner with strong communication and teamwork skills, ready to take on challenges in the IT industry.

WORK EXPERIENCE

Academic Project
Project Title: Employee Management System (In-house Project)
Duration: [october-2024] – [April-2025]
Role: Full Stack Developer
Technologies: Java, Spring Boot, React.js, POSTgre, REST APIs

Description:
Built an Employee Management System as an in-house project during the third year of my Bachelor of Computer Applications. The project aimed to streamline the management of employee data within an organization by enabling efficient CRUD operations and
user-friendly access through a full-stack application.

Outcome:

Successfully demonstrated to faculty as part of internal assessment.

Strengthened full-stack development skills and experience in real-world application building.

Gained practical exposure to backend API development, frontend frameworks, and database design.
